

Plug In America[®]

Plug In America is a non-profit association of plug-in drivers providing education and advocacy for electric vehicles (EVs).

Why Drive Electric?

- **PERFORMANCE:** Plug-in vehicles offer a quiet, smooth ride.
- **AFFORDABILITY:** Electricity costs less than half the price of gasoline.
- **CONVENIENCE:** EV drivers say goodbye to gas stations, oil changes, and tune-ups.
- **AIR QUALITY:** Plug-in cars reduce air pollution, a leading cause of illness and premature death.
- **NATIONAL SECURITY:** Instead of sending fuel dollars overseas, support jobs with your local utility.

What We Do

- EDUCATE: The best place to learn about EVs is behind the wheel, so Plug In America hosts ride-and-drive events throughout the U.S.
- ADVOCATE: Plug In America provides a unified voice for plug-in drivers to fight for smart policies that support EV adoption.
